

September 12, 2005

Dear Valued Customer:

We at NTG are pleased to announce the latest release of our OSS System, NTS. NTG is offering this product to your company after years of development and testing before making it officially available on the market.

NTG is a Telecom and IT infrastructure solutions provider, established in 1992, and servicing telecommunications, utilities, financial enterprises, business enterprises and governments. With offices and operations spanning over continents from North America, Asia, and Africa and soon in Europe and Australia/New Zealand we have acquired extensive international expertise. Our staff consists of over one hundred and fifty IT and Network professionals plus over two hundred senior consultants and associates from around the globe. NTG has an experienced senior management team that understands the international Telecom business.

NTG will soon introduce its latest OSS release, NTS, into the market. Utilizing the latest development technologies, design and round-the-clock support, NTS is one of the worlds most advanced OSS and e-business solutions. Major companies around the world put their trust in NTG and its line of products. These companies range from North America to the Middle East, with a client repertoire including Rogers, Bell, Sprint Canada, Allstream (formerly AT&T Canada), Toronto Hydro, Raya, Eynet, Saudi Telecom, Algeria Telecom and others.

The NTS OSS is known throughout the industry for quality, scalability and durability.

To see a demo, please email us at ntsoss@ntgclarity.com and we will be glad to set up a presentation at your earliest convenience.

We look forward to the opportunity of working with you!

Sincerely,

Sam Siblini
Director of Sales and Marketing
NTG Clarity Networks Inc.
